

PROFESSIONAL SUMMARY

Results-driven Full Stack Django Developer with **4+ years** of hands-on experience and **1,661 GitHub contributions** in the last year. Delivered **91+ projects** for **73+ clients** across e-commerce, education, media, and civic tech. Proficient across the full Python / Django / PostgreSQL stack — from architecture to deployment. **Hack4FUTO 4th Place** out of 24 teams. Seeking software engineering roles at ambitious technology companies.

KEY HIGHLIGHTS

91+ Projects Delivered	73+ Happy Clients	4+ Years Experience	1,661 GitHub Contributions (last 12 months)
----------------------------------	-----------------------------	-------------------------------	--

TECHNICAL SKILLS

Languages: Python (Expert) · JavaScript (Advanced) · HTML5 (Expert) · CSS3 (Advanced) · SQL · Dart

Frameworks: Django (Expert) · Django REST Framework (Expert) · Celery · Bootstrap (Advanced)

Databases: PostgreSQL (Advanced) · SQLite (Expert) · Supabase (Advanced) · Cloudinary (Advanced)

Tools & DevOps: Git / GitHub (Advanced) · VS Code (Expert) · Cloudflare · Vercel · Render · Heroku

Concepts: REST API Design · OOP · MVT Architecture · Auth & Permissions · SEO · Agile/Scrum

Exploring: Flutter · Machine Learning (TensorFlow fundamentals) · Google Colab

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer

Jan 2021 – Present

Self-Employed — Remote (Nigeria & International)

- Designed, built and deployed **91+ web projects** for **73+ clients** — e-commerce, NGO portals, news platforms, school systems, and booking apps.
- Maintained **1,661 GitHub contributions** in the last 12 months, demonstrating consistent, disciplined daily output.
- Built **Ahiolu** (ahiolu.com) — production Django multi-vendor marketplace with Paystack payments, Cloudinary media, and vendor dashboards.
- Developed **NextMedia** (nextmediahq.net) — news aggregation platform with editorial CMS, category filtering, and mobile-responsive UI.
- Created the **FUTO BME Portal** (futobme.vercel.app) — departmental student portal serving timetables, resources, and course info.
- Built the department's **first-ever online voting system** — secure voter auth, audit trails, and real-time result dashboard.
- Earned 5-star client reviews consistently across all engagements.

Backend Developer — Team Projects

2023 – 2024

Remote Collaborative Projects

- Led Django backend integrations, REST API design, and user management systems across multiple team builds.
- Handled Git/GitHub version control, deployment pipelines, and technical documentation.
- Implemented CSRF protection, SQL injection prevention, and database query optimisation.

Hackathon Competitor — Hack4FUTO

2025

Federal University of Technology, Owerri

- 4th Place out of 24 teams** at FUTO's largest hackathon.
- Built **Finda** — AI-powered chatbot that searches Jumia, Amazon & eBay simultaneously, compares prices, and delivers personalised shopping recommendations.
- Led backend architecture and REST API integrations within a 48-hour sprint.

SELECTED PROJECTS

Ahiolu — Online Marketplace & Service Booking

ahiolu.com · [github.com/AlphaGL/Ahiolu](#) | [Django](#) · [PostgreSQL](#) · [Cloudinary](#) · [Paystack](#)

Production multi-vendor marketplace with service booking, vendor dashboards, Paystack payment processing, and mobile-responsive UI. Actively serving real users.

NextMedia — News & Media Platform

nextmediahq.net · [github.com/AlphaGL/nextmediahq](#) | [Django](#) · [Cloudinary](#) · [Bootstrap](#)

Dynamic news aggregation platform with editorial CMS, category filtering, and fully responsive design serving daily active readers.

FUTO BME Departmental Portal

futobme.vercel.app · [github.com/AlphaGL/bme_project](#) | [Django](#) · [PostgreSQL](#) · [Bootstrap](#)

Comprehensive student portal — timetables, announcements, resources, and course registration for the Biomedical Engineering department.

Online Voting System — FUTO BME *(First ever in the department)*

[github.com/AlphaGL/Nabes-bme-election-site](#) | [Django](#) · [SQLite](#) · [Bootstrap](#)

Secure online election platform with voter authentication, tamper-proof balloting, and a live real-time result dashboard.

Finda — AI-Powered Shopping Assistant

[github.com/AlphaGL/Finda-backend](#) · [github.com/AlphaGL/finda-api-chatbot](#) | [Django](#) · [AI](#) · [REST APIs](#)

Hack4FUTO 4th Place. AI chatbot searches Jumia, Amazon and eBay simultaneously, compares prices, and delivers personalised shopping recommendations.

EDUCATION & CERTIFICATIONS

Bachelor of Engineering (B.Eng) — Biomedical Engineering

Federal University of Technology, Owerri (FUTO) · Nigeria

2022 – Present

Certifications

The Complete Python Bootcamp App Brewery / Udemy · Python, OOP, APIs, Web Development — 2022

Django Bootcamp Pierian Training / Udemy · Django, REST APIs, Deployment, Authentication — 2022
